Portfolio

PROFESSIONAL SUMMARY

Creative and technically skilled UI/UX and Graphic Design student seeking an internship opportunity to apply design thinking and digital expertise. Proficient in industry-standard design software and front-end development technologies with a passion for creating intuitive user experiences and compelling visual content. Looking to contribute fresh perspectives while gaining hands-on experience in a collaborative design environment.

TECHNICAL SKILLS

➤ Design Specialties:

- UI/UX Design
- Graphic Design
- Video Editing
- Motion Graphics
- Audio Production
- Responsive Web Design

➤ Web Development:

- HTML
- CSS
- Bootstrap
- Tailwind CSS
- JavaScript
- PHP

➤ Design Software

- Adobe Photoshop
- Figma
- DaVinci Resolve
- Adobe Premiere Pro
- Adobe After Effects
- Adobe Audition

Soft SKILLS

- Teamwork & Collaboration
- Communication
- Problem-Solving
- Time Management
- Adaptability
- Ability to Work Under Pressure
- Leadership & Mentorship
- Critical Thinking
- Creativity
- Adaptable Learner

EDUCATION

2023 – 2025 – Higher National Diploma (HNDIT)

- ❖ I have completed my **Higher National Diploma in Information Technology (Software Engineering)** at the Advanced Technological Institute in Kegalle.

(index :- KEG \ IT \ 2022 \ F \ 0025)

2020 – GCE (A/L) Examination (Index No: 2482555)
(St' Mary's College – Kegalle)

- Engineering Technology :- S
- Science for Technology :- S
- ICT :- S
- English :- S

2017 – 2019 – NICT Diploma Program
(SANMO Vocational training Institute)

- ❖ I have a strong command of both computer science and graphic design, having earned an NICT Diploma from the SANMO Vocational Training Institute, where I completed comprehensive theoretical and practical training. Here's what skill I developed using that diploma.
(index :- 5885 / 012 / T7)

- ✓ Knowledge of computer **hardware and assembling**.
- ✓ Basic theory of **OS and application handling**.
- ✓ Work with **Microsoft Office Package**.
- ✓ **Audio editing**, recording, mixing, mastering, and dubbing.
- ✓ **Video editing** and recording.
- ✓ **Graphic design** with CorelDraw and Photoshop.

2017 – GCE (O/L) Examination (Index No: 72210370)
(St' Mary's College – Kegalle)

- Science :- A
- Sinhala :- A
- Agriculture :- A
- Mathematics :- B
- Buddhism :- B
- Geography :- B
- Art :- B
- History :- C
- English :- C

RELEVANT PROJECTS

Lecture Hall Management System (*HTML , CSS , Bootstrap5 , Java Script , PHP, MYSQL*)

I Developed a web-based Lecture Hall and Lab Management System using PHP and MySQL, designed to streamline campus room allocation and lecture scheduling. This project features a robust admin panel for efficient management of halls, labs, and lecture assignments, alongside a user-friendly interface that allows students to easily find lecture details and their assigned rooms, ultimately improving campus efficiency and information accessibility.

Freelancer Website System (*HTML , CSS , Bootstrap5 , Java Script , PHP, MYSQL*)

This is another project. I built a platform akin to "Fiverr," designed to connect users with freelancers. Using this website, freelancers can add a gig and post their skills, like "Fiverr". Users can buy that gig (service). Also, this website has an admin panel to use admin to manage the whole website and database. This is a perfect example of my collaboration work, because I built this with Dimuth Adithya and Ravindu Lasal, who are my campus teammates.

Gym Management System (*HTML , CSS , Bootstrap5 , Java Script , PHP, MYSQL*)

This project is a web-based **gym management system** designed to streamline operations and enhance the fitness experience for members, trainers, and administrators alike. This all-in-one platform provides an intuitive interface for managing **fitness routines, meal plans, progress tracking, and scheduling**, empowering all users to efficiently handle their fitness journeys and administrative tasks from a single, centralized hub.

Project Icons (*HTML , CSS , Tailwind CSS, Java Script*)

Project Icons is a sleek, modern website offering a curated collection of **tech stack icons**, specifically designed for developers. It features an intuitive, user-friendly interface with essential functionalities like **dark/light mode support** and **robust search capabilities**, making it simple for developers to easily find, preview, and download icons for use in their projects.

ADDITIONAL EXPERIENCE AND FACT

- **Freelancer & Web Project Sales:** I work as an independent freelancer and also sell small web projects, applying my skills to diverse client needs and market demands.
- **Team Leadership:** I led my group to achieve the highest marks in our second-semester project, demonstrating strong leadership and collaborative problem-solving.
- **Collaborative Projects:** I have successfully completed several projects in collaboration with teammates and other partners, showcasing strong teamwork abilities.
